WHY CHOOSE

# iFABRICATE

?????

# EMPLOYEE & HR MANAGEMENT

Optimizes employees management operations, from basic-level operations like attendance, sick leaves, shift scheduling and meetings, to high-level operations such as payroll management authorization limitations, ID cards generation, organizing and sorting departments and job positions, and streamlines trainings, recruitment pipeline .

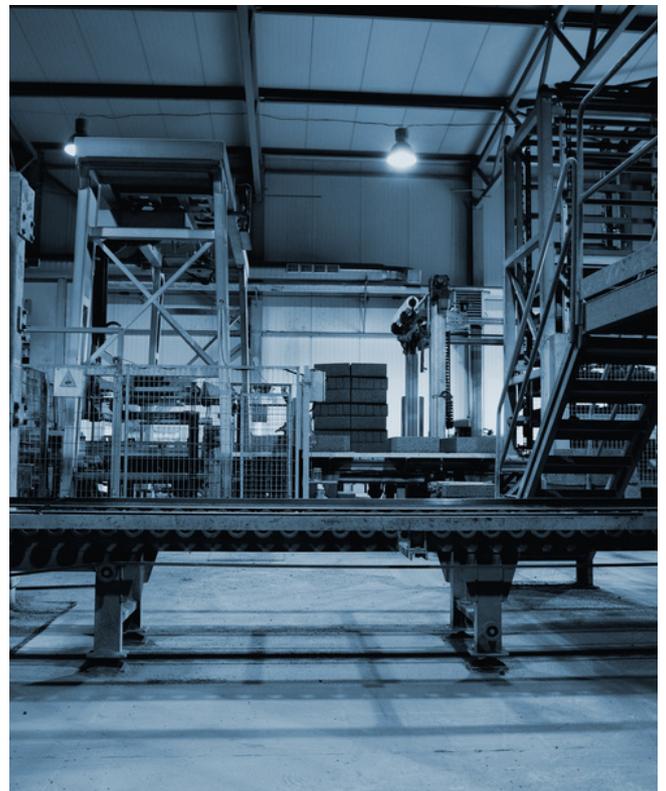

# CENTRALIZED MANAGEMENT SYSTEM

**iFABRICATE** centralizes all activities, manages all in-house operations and throughout your multiple locations .

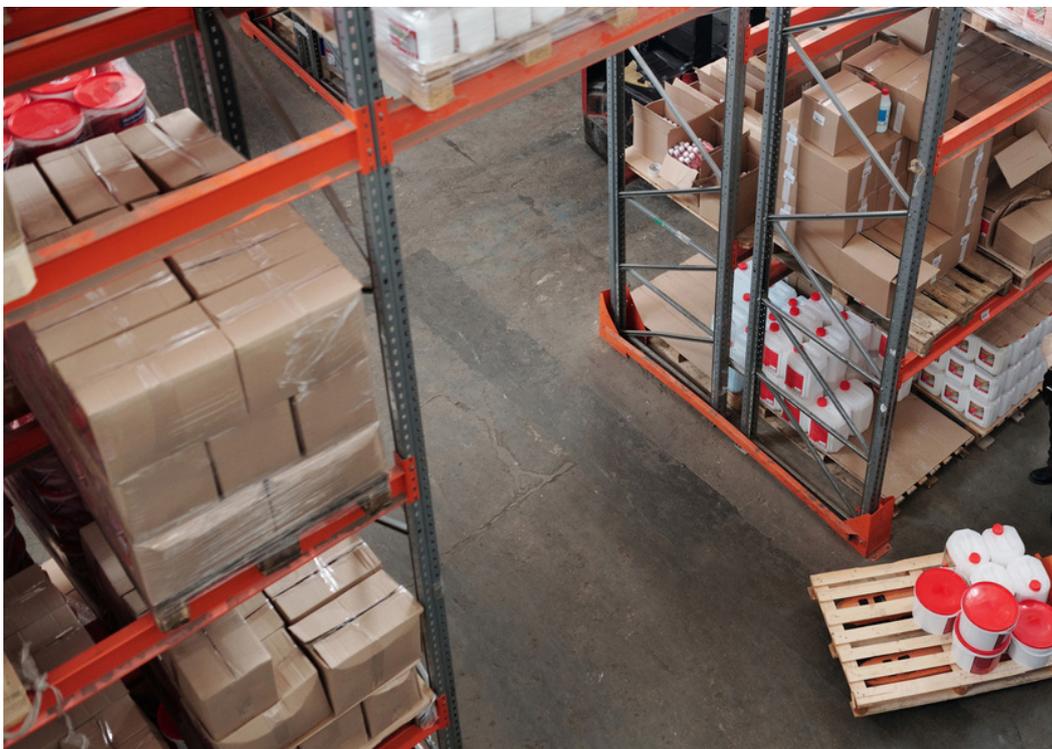

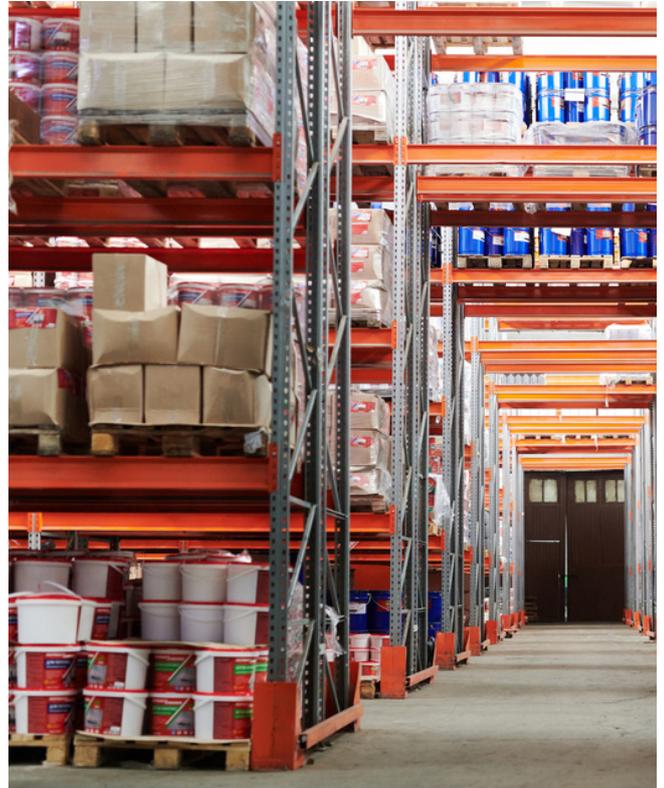

Managers can use **iFABRICATE** to delegate various tasks, including manufacturing, maintenance, shipping ( importing/exporting ) reports, which eliminates the chance of human error along the way .

By tracking and documenting every process, Along with updates and alerts to help you supervise it all, **iFABRICATE** ensures that things are getting done more efficiently, and controls business growth .

# PRODUCT & INVENTORY MANAGEMENT

Keeps track of in-premises and in-stores products ( owned stores/ partner stores ), as well as the products that are being manufactured . **iFABRICATE** also analyses and manages the imported and exported products processes, with notifications when Inventory reaches minimum amount required .
